HOW TO KEEP SKUNKS AWAY

Remove Their Food Sources

If you want to repel skunks, you have to keep the yummys out of the yard that's attracting them. Use lids on your garbage cans and always tie the trash before placing the lid on and never ever leave pet food outdoors. Not only will you attract skunks, but you'll attract other animals as well. The next thing you know, you'll be feeding an entire neighborhood of hungry animals. Checking under your porches, sheds, patios and crawl spaces for openings that need to be sealed can keep skunks from coming into your home in search of food as well. If you have trees or bushes that harvest fruits, berries or nuts, check your yard often in search of those that have fallen on the ground and remove them. Remove all water sources that skunks can easily access as well.

Light

Because skunks are nocturnal animals, they prefer to come out and search for food at night. Light has been known to frighten them and send them elsewhere to look for food. By using a bright light in your yard at night, you can keep them from coming in your yard and digging up their supper. Does this really work? It could probably work for a little while, but imagine the money you'd have to spend on your electric bill just to light your entire yard. Not to mention, your neighbors probably won't be too fond of a bright light being on all night long. Motion detector lights could work; however, animals become immune to specific things after a certain period of time, just as we humans have a tendency to do. You may find yourself looking for another repellent before you have a chance to actually get rid of your little friend.

BUILDING PERMITS

If you have building permits with deficiencies to be cleared up or just need a final inspection, please get this done and we can get your permit CLOSED and off your file.

To arrange a final inspection please call MuniCode at (306) 955-6355.

EMAIL ADDRESSES NEEDED

Council is looking at alternate means of mailing Utility Bills; please email the Town Office with your name, civic address and email address to

townaberdeen@sasktel.net

or stop by the office during business hours.

We are hopeful that our Utility program will be set up for e-billing in the New Year!

Next Council Meeting

November 8, 2016

Controlled Burn

There are new regulations for registering your controlled burn. To register your controlled burn, you must register it first with the municipality by calling **306-253-4312** or **Adrien Hamoline after hours and weekends at 306-230-1603**. Then, you must Register your Burn with the **Provincial Fire Center at 1-866-404-4911**. The Provincial Fire Centre has the ability to see where a call is coming from and if it's close to a reported controlled burn. If a passing motorist phones in to report a fire that you have not registered with the Municipality and the Provincial Fire Center, we will be forced to fine you \$500. It only takes a moment to make the call. **DO NOT** plan any controlled burns when the wind is blowing!!! The RM of Aberdeen charges \$500 for ALL fire calls that have our Fire Fighters leave the fire hall. If our fire department deems it necessary to call in adjacent fire fighters from neighboring municipalities, ALL costs and charges will be forwarded to the person responsible for starting the fire.

ABERDEEN & DISTRICT FIRE & RESCUE

Don't Wait Check the date! Replace Smoke Alarms Every 10 Years is the theme for Fire Prevention Week across Canada, October 9 to 15, 2016.

Smoke alarms have become such a common feature of Saskatchewan households that they are often taken for granted and often are not tested and maintained as they should.

Aberdeen & District Fire & Rescue, along with their mascot Sparky, visited the Kindergarten to Grade 3 students at Aberdeen Composite School about the importance of properly working smoke alarms, fire safety, and emergency planning.

This year **Jayna Taniskashayinew** was our **"Fire Chief for a Day"**. She got some great prizes and was also picked up for school and taken home in the fire truck.

Draws were again made to hand out smoke alarms: Isabella Findlay, Rylan Partridge, Ethan Sapieha, Sam Bazarkiewicz, Taylor Pearson, Allyson Rempel, Keira Deobald, Dax, Knox, Parker, Rhyejanna, Sean Elijah S, Jaxon Doering, Hunter Berg, Jacey Lutze.

Over the last 16 years, Aberdeen & District Fire & Rescue has handed out over 240 smoke alarms during Fire Prevention Week.

Smoke Alarm Safety at Home – Here is what you need to know:

- Install smoke alarms in every bedroom, outside each sleeping area and on every level of your home, including the basement.
- Test your smoke alarms every month. Press the test button to be sure the alarm is working.
- If your alarm chirps it is a warning the battery is low so replace the battery right away. Replace batteries every year.
- Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 3 meters from the stove.
- Make sure everyone in the home knows the sound of the smoke alarm and understands what to do when they hear it.
- Replace all smoke alarms in your home every 10 years.

Kitchen/appliance fires are still the #1 cause of house fire ~ BE SAFE!

Thank you for making fire safety your priority
